Description

**Steps:**

1. Open page <https://crackedcalc.herokuapp.com/>
2. Type invalid data into the "Value1" and "Value2" fields - numbers with letters and special symbols (1\c)
3. Click button "Divide"
4. See the result in the field "Solution"

**Actual result:** "Solution" field remains blank

**Expected result:** An error message should appear in the "Solution" field after entering incorrect data and clicking the "Divide" button

**Severity:** Critical
